Human Resources Strategy for Researchers

Rennes, 1 June 2018

Subject :

***Declaration of endorsement of the « European Charter for Researchers »
and the « Code of conduct for the Recruitment of Researchers »***

Our university has a truly international outlook with 265 institutional partners, 3,000 international students and many strong research and teaching links with partners from all over the world.

We constantly aim at enhancing our international visibility and attractiveness by consolidating our international research activities and by increasing the participation of our academic staff in European research projects. We also consider that the application of the 40 principles mentioned in the European Charter for Researchers and the Code of conduct for the Recruitment of Researchers is a prerequisite to fully achieving this goal.

On March 30th 2018, the administrative board members of Rennes 2 University approved the decision to comply with the European recommendations in the field of research. Therefore, I am very pleased to notify you of our university's commitment to the process of implementing the Human Resources Strategy for Researchers (HRS4R) in our institution.

Professor Olivier DAVID
President of Rennes 2 University
